WENTZ BAIXA BED

Baixa (“low” in Portuguese) is the first WENTZ bed and translates the designer’s intent to invite people to lay close to the floor. The curved and upholstered structure breaks the rigid lines of the mattress and invite to relaxation. The exclusive WE—KNIT® covering — made from recycled PET bottles — provides a soft touch on a seamless surface.

MATTRESS HEIGHT

The height varies depending on the mattress used. Please consider that the mattress will be elevated 9cm / 3½" from the floor. (In the drawing and photos: mattress 25cm / 10" high, resulting in a total height of 34cm / 13½"). We recommend using a mattress of up to 35cm / 14" to maintain the usable area of the backrest.

NOTE
Mattress not included.

LIFT LEGS

The Baixa Bed standard legs can be replaced with the "lift legs" to raise the total height by 5cm / 2 inches and consequently lift your mattress.

NOTE
Baixo Lift Legs sold separately.

WE—KNIT®

At WENTZ, design extends beyond form — it lives in the very fibers of each piece.
WE—KNIT® is our exclusive 3D knitting technology, developed to create flexible, seamless covers that mold perfectly to the structure, enhancing the purity of the design. This innovation allows each product to be conceived and completed with materials designed by Guilherme Wentz, offering a curated range of textures and tones that invite a deeper tactile and visual experience.
Here, fabric is not an addition — it is part of the creation itself.
