WENTZ
BAIXA
LOUNGE CHAIR

Baixa (“low” in Portuguese) lounge chair is a fusion between casuality and comfort. Its circular structure close to the ground invites to quietness, providing a casual and relaxing seating.
The Baixo pouf was originally designed to be used as a complement for the Baixo sofa or the Baixa armchair. But its clean and contemporary design allows it to be used in any interior with other furniture.
The exclusive WE—KNIT® covering — made from recycled PET bottles — provides a soft and warm touch on a seamless surface.

WE—KNIT®

At WENTZ, design extends beyond form — it lives in the very fibers of each piece.
WE—KNIT® is our exclusive 3D knitting technology, developed to create flexible, seamless covers that mold perfectly to the structure, enhancing the purity of the design. This innovation allows each product to be conceived and completed with materials designed by Guilherme Wentz, offering a curated range of textures and tones that invite a deeper tactile and visual experience.
Here, fabric is not an addition — it is part of the creation itself.
