WENTZ
FITA
SOFA

The Fita series takes its design inspiration from the casualness of improvisation. The structure is limited to foams of different densities that have been enveloped with a entire piece of fabric and tied with stripes that unites the different materials in this synthesis of laid-back comfort.
Available in two fabric options developed by WENTZ that have wool as the main raw material. The fabrics represent a new textile path for the brand by using natural fibers and traditional weaving techniques.

C.O.M. (Customer's Own Material)
Available Upon Approval

Some WENTZ products may be upholstered with customer-supplied materials, as long as the fabric is first reviewed and approved by our factory and design team.

Please note that variations in fit, finishing, and overall aesthetics may occur depending on the material's characteristics.
For the most refined and reliable result, we recommend selecting from our exclusive range of fabrics, designed by WENTZ to complement each piece in both form and function.
