WENTZ
FUNGI
TABLE LAMP #2

Fungi Collection seamlessly blends nature-inspired forms with hig-end technology. Drawing inspiration from the organic allure of mushrooms, Fungi captures the essence of these natural wonders in a dynamic interplay of shapes and sizes.
The Fungi #2 models features a thick structure and a large dome illuminated by more than 300 LEDs, creating a seamlessly diffused light on the large glass piece.
The proportions of this variation make it a sculptural statement. The table lamp version introduces a nuanced lighting experience, offering three adjustable levels.
