WENTZ
PAPEL
FLOOR LAMP

Form, unique gestures, impermanence.
These contrasts are explored in Papel, a collection that finds in the apparent fragility of Tyvek® its main raw material.
The Papel lamp dome is hand-shaped in an artisanal process that embraces the individuality of imperfection—what makes each piece one of a kind.
These are creations born from technical precision, yet they carry the human trace of the hand that guides the form. The result is silent compositions that inhabit space like functional sculptures.
