WENTZ PORTABLE LAMP 001

Objects For Silence is the WENTZ accessory collection that seeks to bring the essence of “silent living” into the space, transforming the environment into a contemplative refuge and reducing the daily noise.
The Portable Lamp 001, made of aluminum, has a design that aims to reduce the object to the essence of the geometric form, and was inspired by a warmer, more harmonious, calm and diffuse light. The LEDs were strategically positioned so that, when contrasting with its structure, they create an effect of perfect geometric shapes when reflected on the surface where they are placed.
Inspired by light and flame, this series of objects becomes an invitation to celebrate personal rituals of silence and contemplation, whether individual or collective.
